

# Zahid Hasan Emon

AI Systems Architect · Product Builder · Full-Stack SaaS Engineer

hello@zhemon.site · trendflux.digital · Bangladesh · Remote Worldwide

## POSITIONING

**I build AI-native software systems that turn ideas, workflows and business problems into production-ready digital products.**

Zahid Hasan Emon is an AI Systems Architect and Product Builder specializing in AI-native software, SaaS platforms, business operating systems, CRM/RevOps, automation and full-stack product engineering. He builds complete digital products from architecture to production.

## BRAND STATEMENT

**Build Systems. Not Just Websites.**

AI · SaaS · Automation · Business Systems · Digital Products

## FOCUS AREAS

### AI Systems & Agents

AI assistants, agents, LLM-integrated apps, RAG workflows, AI automation.

### SaaS Product Engineering

MVPs, B2B/B2C SaaS, multi-module platforms, customer & admin portals.

### Business Operating Systems

CRM, RevOps, real estate OS, finance and operations platforms.

### Automation & Analytics

Workflow automation, webhooks, dashboards and revenue intelligence.

## SELECTED WORK
